

DEALER CROSSOVER ACCEPTANCE FORM

Most dealers using the Auto Butler program will gladly accept customers who have purchased an Auto Butler from another dealership. These customers have generally moved into town from another state. By you doing the Auto Butler reapplication for these customers, you now have a chance to gain a new "Customer for Life". You can now garner their service business as well as have opportunities to sell them additional vehicles. This works both ways, so if one of your customers purchased the Auto Butler program from your dealership and moved you know they will be taken care of. These customers are required to abide by your preparation charges (if any) or by the specials you offer your Auto Butler customers (if applicable).

☐ I would like Auto Butler to refer any prospective crossover customers to our dealership.
